Profile Summary

Creative and detail-oriented Computer Science undergraduate with a strong interest in web design and frontend development. Hands-on experience designing and building responsive, user-friendly interfaces using HTML, CSS, JavaScript, React, and Tailwind. Passionate about clean UI, modern design systems, and transforming ideas into visually engaging digital experiences. Actively seeking a Web Designer Intern role to learn, build, and contribute to real-world production projects.

Core Skills

Design Tools: Adobe Illustrator, Adobe Photoshop
Frontend Technologies: HTML5, CSS3, JavaScript (ES6), React.js
Styling & UI Frameworks: Tailwind CSS, Bootstrap
Design Concepts: Responsive Design, UI Components, Layout Design, Visual Hierarchy
Developer Tools: Git, GitHub, VS Code, Chrome DevTools
Soft Skills: Creativity, Attention to Detail, Communication, Collaboration, Fast Learner

Projects

Personal Portfolio Website   HTML, CSS, JavaScript

- Designed and developed a responsive personal website to showcase projects, skills, and achievements.
- Applied clean layout principles, consistent typography, and modern UI styling for a professional look.
- Optimized website for mobile, tablet, and desktop devices using responsive design techniques.
- Improved performance and maintainability through modular CSS and reusable components.

College Marketplace Web Application (Frontend)   React, CSS, Bootstrap

- Developed user-facing pages for product listings, search, and navigation with a focus on usability.
- Built reusable UI components using React to ensure consistency across the application.
- Enhanced user experience through improved layout structure and intuitive interaction flows.
- Collaborated with peers to iterate on UI designs based on feedback and testing.

Experience

Data Engineering Intern — Celebal Technologies   May 2025 – Jul 2025

- Worked in a collaborative, fast-paced team environment following agile development practices.
- Developed strong debugging, documentation, and problem-solving skills on production-level tasks.
- Gained experience working with structured workflows, version control, and team communication.

Design & Development Exposure

- Hands-on experience converting design ideas into functional frontend interfaces.
- Familiar with maintaining visual consistency across pages using shared components and styles.
- Comfortable learning new frameworks, design tools, and frontend best practices quickly.

Education

B.Tech — Computer Science Engineering   2022 – 2026 (Expected)
Techno India University, Kolkata   CGPA: 7.79/10

Activities & Achievements

- Active member of college technical club **Takshila**; helped organize hackathons and coding competitions.
- TCS CodeVita — All India Rank 18,000.

Key Strengths

UI Attention to Detail • Creative Thinking • Design Sense • Team Collaboration • Willingness to Learn • Adaptability
